SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: P values were interpreted as significant if less than .05. Patient Involvement Because this study includes only analysis of secondary deidentified data, it was not considered human subject research and received exemption from the institutional review board approval at our institution.
Inclusion and Exclusion Criteria
Inclusion Criteria This study identified and included 7423 patients who underwent thoracolumbar deformity surgery (CPT codes 22 800 , 22 802 , 22 804
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: Patients <18 years old or those who had ICD-9-CM codes consistent with prior of history of tumor or trauma were excluded.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Student t tests and kh2 tests were utilized to assess significant differences in demographic data, baseline comorbidities, postoperative complications, quality outcomes, and payments among the groups.	t tests

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
