Document Identifier: **PMC8023124**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: All voluntary subjects signed the informed consent form and the study was conducted according to the ethical principles of the Declaration of Helsinki (approval number: NEU2020831169).
Inclusion and Exclusion Criteria
None of the subjects withdrew from the study.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
Patients biological samples (blood and swab) were collected and analyzed to identify viral RNA by RT-qPCR and SARS-CoV-2-specific antibodies by ELISA assay.	SARS-CoV-2-specific		
Software and Algorithms			
A venous blood sample was collected from each patient to perform ELISA antibody tests (Immunoglobin M and Immunoglobin G) by Abbott COVID-19 Antibody test kit (Chicago, USA) at the first and the last days of the study.	Abbott		Suggestion: Abbott (RRID:SCR_010477)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
