Document Identifier: **PMC8024658**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The study complies with the declaration of Helsinki and has been approved by the local ethics committee (ID Nr 24011 ClinicalTrials.gov Identifier: NCT 01768585, Eudra CT Number: 2012-001989-15).
Consent: Written informed consent was obtained from all patients and data were analyzed anonymously.
Inclusion and Exclusion Criteria
The main inclusion criteria were coronary artery disease (CAD) detected by coronary angiography and a resting HR of at least 70 bpm.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
Patients were randomly allocated to treatment with placebo or ivabradine (7.5 mg bid Servier, Neuilly-sur-Seine, France) over 6 months with a following cross-over to the alternative treatment arm.
Blinding
2.3 Imaging analysis CMR data were transferred to an external workstation and were analyzed by two blinded experienced radiologists (PF and JS) using dedicated image evaluation software (Syngo . via (VA30A) , Siemens Healthineers , Erlangen , Germany)
Power Analysis
not detected.
Replication

not required.	
Protocol Information	
Identifiers: The study complies with the declaration of Helsinki and has been approved by the local ethics committee (ID Nr 24011 ClinicalTrials.gov Identifier: NCT 01768585, Eudra CT Number: 2012-001989-15).	2012-001989-15

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Analyses were performed with Statistical 1 Package for Social Sciences (SPSS for Windows 23.0, Chicago, IL, USA) and GraphPad Prism 8.0 (Graphpad Software, Inc., California, USA).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)
	Graphpad		Suggestion: GraphPad (RRID:SCR_000306)(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Continuous variables were compared using a two-tailed Students t-test for parametric and Mann-Whitney U test for non-parametric variables.	t-test
	Mann-Whitney U test
Categorical variables were compared with the kh 2 test.	kh 2 test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
