Document Identifier: **PMC8041651**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: All experimental procedures were carried out according to the guidelines of the Institute of Laboratory Animal Resources , Commission on Life Sciences University , National Research Council (1996) , approved by the RIPS Ethical Committee (Reference No: RECRIPS2017010) .
Euthanasia Agents: Following the behavioral tests , the animals were terminally anesthetized with sodium pentobarbital (60 mgkg , i.p.) .
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Weight: Animals Male Sprague Dawley rats weighing 180-200 g were housed three per cage under a 12 hour lightdark cycle with free access to water and food at the animal house of Riphah Institute of Pharmaceutical Sciences (RIPS) under standard laboratory protocols (temperature: 22+-1degC humidity: 50+-10) .
Randomization
The last 4 min were randomly assessed at 5 s intervals.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
Next , the slides were incubated overnight with primary antibodies Bcl2 , Caspase 3 , TNF-a , and p-NFkB .	TNF-a		
	p-NFkB		
After blocking the PVDF membranes using skim milk to reduce binding of the nonspecific protein binding , the PVDF membrane was incubated at 4degC for the whole night with the primary antibodies against rat anti-Nrf2 , mouse anti-HO-1 . b-actin was used as a loading control.	anti-Nrf2		
	anti-HO-1		
Experimental Models: Organisms/Strains			
Animals Male Sprague Dawley rats weighing 180-200 g were housed three per cage under a 12 hour lightdark cycle with free access to water and food at the animal house of Riphah Institute of Pharmaceutical Sciences (RIPS) under standard laboratory protocols (temperature: 22+-1degC humidity: 50+-10) .	Sprague Dawley		Suggestion: RRID:RGD_70508(link)
Software and Algorithms			
Images were obtained using a light microscope and saved in TIFF format for further quantification by ImageJ software.	ImageJ		Suggestion: ImageJ, RRID:SCR_003070(link)
The online database PubChem was used to retrieve the 2D structure of carvacrol, which was then processed for docking in DS v4.5 (Discovery Studio).	PubChem		Suggestion: PubChem (RRID:SCR_004284)(link)
Following the docking protocol, approximately 100 different conformations of carvacrol were created by employing the genetic algorithm (GA) of the GOLD package.	GOLD		Suggestion: GOLD (RRID:SCR_000188)(link)
The bar graphs were analyzed using GraphPad Prism 6.0 (GraphPad, San Diego, CA, USA).	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical Analysis The results obtained were expressed as mean +- standard error of the mean (SEM) and statistically analyzed by applying one-way ANOVA followed by Bonferroni multiple comparisons as post-hoc.	ANOVA
	Bonferroni multiple comparisons

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
