Document Identifier: **PMC8056185**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IACUC: In this study , all experiments about mice were conducted according to the guidelines approved by the Animal Experimental Ethics Committee of SKLB , Sichuan University . 2.2 Synthesis of MPEG-PCL-MPEG and FA-PEG-PCL-PEG-FA polymers The MPEG-PCL-MPEG polymers were synthesized according to the following steps .
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
C57BL6 female mice (5-6 weeks old) were purchased from Beijing Huafukang Biotechnology Co . Ltd. (Beijing , China) .
Subject Demographics
Age: C57BL6 female mice (5-6 weeks old) were purchased from Beijing Huafukang Biotechnology Co . Ltd. (Beijing , China) .
Randomization
After inoculation , mice were randomly allocated into five groups: (A) GS , 5 glucose solution (B) F-PPPD nanoparticles (vehicle) (C) F-PPPDpvax complex (D) PPPDpCKb11 complex and (E) F-PPPDpCKb11 complex .
Blinding
not detected.
Power Analysis
not detected.
Replication
The ELISA results were shown as the means of triplicate wells .

Number: After repeating the aforementioned step for thrice , the obtained product , MPEG-PCL-MPEG , was dialyzed and freeze-dried.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Experimental Models: Organisms/Strains			
C57BL6 female mice (5-6 weeks old) were purchased from Beijing Huafukang Biotechnology Co . Ltd. (Beijing , China) .	C57BL6		Suggestion: RRID:IMSR_JAX:000664(link)
Recombinant DNA			
The pCKb11 or pvax was then added to this solution to obtain the F-PPPDpCKb11 or F-PPPDpvax complex via self-assembly .	pCKb11		
First , pCKb11 was added to the F-PPPD nanoparticles at different weight ratios (pCKb11:F-PPPD) of 1:0 , 1:12.5 , 1:25 and 1:50 .	pCKb11:F-PPPD		
2.7 In vitro gene transfection efficiency Since the green fluorescence protein (GFP) is the most frequently used reporter , the plasmids encoding enhanced GFP (pEGFP) were used as the reporting system for analyzing the transfection efficiency in our study .	pEGFP		Suggestion: RRID:Addgene_58345(link)
Software and Algorithms			
2.3 Molecular dynamics of the interaction between FA-PEG-PCL-PEG-FA and DOTAP The structure of DOTAP was first established with Marvin Sketch (http:www.chemaxon.com) , followed by being refinement at the molecular mechanical level via the MMFF94 method 22 .	http:www.chemaxon.com		
Finally , the gel was photographed using a gel imaging system (Bio-Rad Laboratories , Hercules , CA , USA) .	Bio-Rad Laboratories		Suggestion: Bio-Rad Laboratories (RRID:SCR_008426)(link)
All statistical results were analyzed by using GraphPad Prism software version 7 (GraphPad, San Diego, US).	GraphPad Prism		Suggestion: GraphPad Prism (RRID:SCR_002798)(link)
	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
2.16 Statistical analysis Statistical analysis for comparing two groups was performed by Students test, while One-way analysis of variance (ANOVA) was used for statistical analysis of multiple comparisons.	Students test
	analysis of variance
	ANOVA
Survival analysis was performed by the Kaplan-Meier method (Log-rank test).	Log-rank test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
