Document Identifier: **PMC8057828**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: This study was performed in accordance with the tenants of the Declaration of Helsinki and IRB exempt status was obtained by the Sterling IRB (IRB ID: 8483-RPGallemore) on the basis that informed consent was not required for this retrospective study as patient information was to be obtained and recorded in a de-identified manner.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Cell Line Authentication

not detected.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Experimental Models: Cell Lines			
After a core vitrectomy, TA (TRIESENCE, Alcon Laboratories Inc., Fort Worth, TX) was injected over the optic nerve and macula and, in the case of stage 2 or 3 MHs, a posterior vitreous detachment (PVD) was created.	TA		Suggestion: (RRID:CVCL_8484)(link)
Software and Algorithms			
Statistical Analysis All data were recorded on Microsoft Excel and statistical analysis was performed using Data Analysis Toolpak software.	Microsoft Excel		Suggestion: Microsoft Excel, RRID:SCR_016137(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Pre-operative and post-operative BCVA was compared between cohorts utilizing a repeated measures analysis of variance.	analysis of variance
Closure rates were compared between groups using a Fishers exact test.	Fishers exact test
Unless specified above, data was analyzed using a paired Students t-test.	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
