# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| not required. |
| Inclusion and Exclusion Criteria |
| All the event spikes were collected at an open pore current of 10, which was approximately four times larger than the noise all dwell times longer than 200 ms and normalized current blockages lower than 0.05 were excluded from the data analysis. |
| Attrition |
| not required. |
| Sex as a biological variable |
| not required. |
| Subject Demographics |
| Age: not required. |
| Weight: not required. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| The nanopore was made on the SiN x membrane using an electric pulse generated using a Keithley 2450 device that was controlled by the labVIEW program as previously described (Kwok et al., 2014 Yin et al., 2017 Acar et al., 2019 Gao et al., 2019 Tian et al., 2019). | labVIEW | | Suggestion: LabView (RRID:SCR_014325)( link) |
| meGX, which is made from beech wood and widely used in reported research (Biely et al., 1985 Macekova et al., 2006), was purchased from Sigma (M5144). | Sigma | | Suggestion: sigma-tau (RRID:SCR_000488)( link) |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
