Document Identifier: **PMC8078262**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The Protocol and its amendments were approved by the appropriate institutional review board or independent ethics committee at each site.
Consent: All patients provided written informed consent.
Inclusion and Exclusion Criteria
Exclusion criteria are provided in the Data Supplement (online only).
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
The primary objective was to estimate ORR per RECIST, version 1.1 (RECIST v1.1) as assessed by blinded independent central review (BICR) in patients with nccRCC.
Power Analysis
not detected.
Replication
not required.

Protocol Information	
Identifiers: METHODS Study Design and Objectives KEYNOTE-427 (ClinicalTrials.gov identifier: NCT02853344) was an international, single-arm, open-label, multicohort, multicenter phase II trial performed at 61 sites in 10 countries.	NCT02853344

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
