Document Identifier: **PMC8084565**

# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| Consent: Data collection and management The interview guide was developed with the help of the CAMAP working group on assessment for capacity to give informed consent for MAiD (https:camapcanada.ca) (Appendix 2, available at www.cmajopen.cacontent92E358supplDC1). |
| IRB: Ethics approval This study was approved by the University of British Columbia Research Ethics Board (H15-03198) and the Ontario Tech University Research Ethics Board (15221). |
| Inclusion and Exclusion Criteria |
| The only inclusion criteria were experience as a MAiD assessor and availability for interviews. |
| Attrition |
| Two of the investigators conducted the interviews (M.K. in English and S.T.-H. in French) by phone, video or email, depending on the participants preference. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: not detected. |
| Weight: not detected. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |

| |
|---|
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| For quantitative variables, means, medians and interquartile ranges were calculated using STATA version 15. | STATA | | Suggestion: Stata (RRID:SCR_012763)( link) |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
