Document Identifier: **PMC8089082**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: All subjects signed a written consent form prior to study enrolment.
Inclusion and Exclusion Criteria
Parameters assessed at enrolment included patient history data, demographics, symptoms assessment (dyspnoea – modified Medical Research Council [mMRC] score, COPD Assessment Test [CAT]), quality of life measures (St George's Respiratory Questionnaire), pharmacological and non-pharmacological treatment, pulmonary functions and other clinical examinations (computed tomography [CT] of chest, electrocardiogram, blood gases, etc.).13 Statistical Analyses Of the 784 COPD subjects followed in the CMRD cohort, 64 were excluded due to missing data mandatory for the planned analysis (i.e., data on "Czech" phenotypes, "Spanish" phenotypes, GOLD grades and groups).
Attrition
Parameters assessed at enrolment included patient history data, demographics, symptoms assessment (dyspnoea – modified Medical Research Council [mMRC] score, COPD Assessment Test [CAT]), quality of life measures (St George's Respiratory Questionnaire), pharmacological and non-pharmacological treatment, pulmonary functions and other clinical examinations (computed tomography [CT] of chest, electrocardiogram, blood gases, etc.).13 Statistical Analyses Of the 784 COPD subjects followed in the CMRD cohort, 64 were excluded due to missing data mandatory for the planned analysis (i.e., data on "Czech" phenotypes, "Spanish" phenotypes, GOLD grades and groups).
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.

Power Analysis	
not detected.	
Replication	
not required.	
Protocol Information	
Identifiers: The CMRD project was registered at the Czech Republic State Institute for Drug Control with the identifier 1301100001 and at ClinicalTrials.gov with identifier number NCT01923051.	NCT01923051

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistically significant differences were tested by Log Rank test.	Log Rank test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
