Document Identifier: **PMC8100963**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not required.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
Experiments were repeated in triplicate.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
The 3D-Gene miRNA Microarray (Human_miRNA_17v1.0.0; Toray Industries) can mount 41500 miRNAs based on the Human miRNA Version17 of MirBase (http://microrna.-sanger.ac.uk/) (21) .	MirBase		Suggestion: miRBase (RRID:SCR_003152)(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
To estimate the differences between the groups, Chi-square test were used.	Chi-square test
To estimate the relationship between the candidate miRNA expression and the response rate, Mann-Whitney U test was applied.	Mann-Whitney U test
The survival curves were estimated using the Kaplan-Meier method, and the curves were compared by using the log-rank test.	log-rank test
The paired t-test was used for the chemo-resistance biomarker analysis.	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
