SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Ethical consideration Ethical clearance was obtained from the Research and Ethics Review Committee of the School of Pharmacy, Addis Ababa University.
Consent: Informed verbal consent was also obtained from each participant after explaining the purpose of the study in the language they understand (ie, in Afan Oromo or Amharic as required).
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
The standard questionnaires were also pre-tested before the collection of the entire data 20 randomly selected patients who received HIVAIDS services from 2 health centers were interviewed for this purpose.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Data Information	
Identifiers: Data collection methods and instruments Questionnaires on different service dimensions were prepared based on published researches 26,29,30 and translated to Afan Oromo and then applied to the selected patients through exit interview at each health center.	26,29,30

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Data entry and analysis The collected data were checked for consistency and completeness of the information and analyzed using SPSS version 20 .	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
