SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
6 All patients registered between January 2014 and March 2018 were eligible for inclusion in this study.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: Patients younger than the age of 16 years or of unknown age were excluded.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical analysis Demographic data were compared between survivors and non-survivors using the Wilcoxon rank sum test for continuous variables and Fisher's exact test for categorical variables.	Wilcoxon rank sum test
	Fisher's exact test
For validating NEWS total and NEWS grade for the prediction of outcomes, Spearman's rank correlation was used on NEWS, and multiple comparisons with Fisher's exact test were used on NEWS grade.	Spearman's rank correlation

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
