# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| Consent: Patients willing to take part provided informed consent before being recruited. |
| Inclusion and Exclusion Criteria |
| Eligibility Criteria Participants were considered eligible if they met the following inclusion criteria: adults (aged >=18 years) with newly diagnosed, treatment-naive, unilateral RVO (CRVO, BRVO, or hemispherichemicentral RVO), and who were able to understand and read English and provide informed consent. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: Eligibility Criteria Participants were considered eligible if they met the following inclusion criteria: adults (aged >=18 years) with newly diagnosed, treatment-naive, unilateral RVO (CRVO, BRVO, or hemispherichemicentral RVO), and who were able to understand and read English and provide informed consent. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| A transparent sheet was used to tracedraw the selected location in the affected eye in relation to the optic disc , major retinal vessels and fovea , as displayed in the infrared retinal image of the affected eye on the MAIA screen . | MAIA | | Suggestion: MAIA (RRID:SCR_007153)( link) |
| Statistical Analysis The statistical analysis software IBM SPSS ( Statistical Package for the Social Sciences) , v24 was used to produce descriptive statistics . | SPSS | | Suggestion: SPSS, RRID:SCR_002865( link) |
| | Statistical Package for the Social Sciences | | Suggestion: SPSS, RRID:SCR_002865( link) |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
