SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Methods This study was a retrospective cross-sectional chart review, approved by both the Joslin Diabetes Center (JDC) and the Alexandria Faculty of Medicine Institutional Review Board and adhered to the tenets of the Declaration of Helsinki.
Consent: Given that the study was retrospective, the need for informed consent was waived by the institutional review board (IRB).
Inclusion and Exclusion Criteria
Exclusion criteria included inability to grade and annotate HMas from images, significant media opacities, prior panretinal photocoagulation, or the presence of other retinal vascular diseases.
Attrition
No patient had imaging using both imaging devices at the same session.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication

not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
17 SPSS statistical software version 23 (SPSS, Inc., IBM Company, Chicago, IL, USA) was used for statistical analysis.	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
