SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics	
not required.	
Inclusion and Exclusion Criteria	
not required.	
Attrition	
not required.	
Sex as a biological variable	
not required.	
Subject Demographics	
Age: not required.	
Weight: not required.	
Randomization	
not detected.	
Blinding	
not detected.	
Power Analysis	
not detected.	
Replication	
not required.	
Data Information	
Identifiers: Methods Dataset collection The gene expression profiles GSE53424 and GSE99142 based on GPL10558 (Illumina HumanHT-12	GSE53424
	GSE99142

V4.0 expression bead chip) were acquired from the Gene Expression Ominibus (GEO) database (https://www.ncbi.nlm.nih.gov/geo/).	

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Methods Dataset collection The gene expression profiles GSE53424 and GSE99142 based on GPL10558 (Illumina HumanHT-12 V4.0 expression bead chip) were acquired from the Gene Expression Ominibus (GEO) database (https://www.ncbi.nlm.nih.gov/geo/).	Gene Expression Ominibus		
Gene ontology enrichment and Kyoto Encyclopedia of Genes and Genomes pathway analysis We used Database for Annotation, Visualization and Integrated Discovery (DAVID) 6.8 (https://david.ncifcrf.gov/) to do the gene ontology enrichment and Kyoto Encyclopedia of Genes and Genomes	DAVID		Suggestion: DAVID (RRID:SCR_001881)(link)
(KEGG) pathway analysis to investigate the DEGs at the molecular and functional levels .	KEGG		Suggestion: KEGG (RRID:SCR_012773)(link)
Protein–protein interaction network analysis Using the online database , STRING (STRING is part of the ELIXIR infrastructure: it is one of ELIXIR's; http://string-db.org) , the protein–protein interactions (PPIs) of the DEGs were selected with score (median confidence) >0.4 .	STRING		Suggestion: STRING (RRID:SCR_005223)(link)
The results obtained by PPI network analysis were further module analyzed using Cytoscape Software.	Cytoscape		Suggestion: Cytoscape (RRID:SCR_003032)(link)
All data were statistically analyzed using SPSS software , version 23.0 (IBM Corp , Armonk	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical analysis Statistical significance of the difference between two groups was determined using Student's t-tests .	Student's t-tests

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
