Document Identifier: **PMC8257855**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: 2 Methods 2.1 Ethics approval and consent to participate The study was approved by the Ethics Committee of Beijing Chaoyang Hospital (No.2019-D.-305).
IRB: 2 Methods 2.1 Ethics approval and consent to participate The study was approved by the Ethics Committee of Beijing Chaoyang Hospital (No.2019-D.-305).
Inclusion and Exclusion Criteria
Patients with distant tumor metastasis and suffered other treatments were excluded.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
All the results were repeated three times.

Number: All the results were repeated three times.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
2.1.2 General clinical data The age, gender, preoperative albumin, transaminase, total bilirubin, hepatitis B surface antigen, hepatitis C antibody, AFP index, operation time, and intraoperative blood loss of the patients above were recorded.	albumin, transaminase, total bilirubin, hepatitis B surface antigen, hepatitis C		
Software and Algorithms			
2.1.4 Statistical analysis All data were analyzed with SPSS (version 22.0, IBM SPSS Inc.).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Chi-square test or Fisher exact test was used for classification data.	Chi-square test
	Fisher exact test
Normally distributed data was analyzed by t test and non-normally distributed data was analyzed by Wilcoxon rank sum test.	t test
	Wilcoxon rank sum test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
