SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: This study was approved by Cambridge East Research Ethics Committee (14-EE-0215) and written informed consent was obtained from all participants .
Consent: This study was approved by Cambridge East Research Ethics Committee (14-EE-0215) and written informed consent was obtained from all participants .
Inclusion and Exclusion Criteria
All subjects were over 18 years of age.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: All subjects were over 18 years of age.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Cell Line Authentication

Authentication: Questionnaires COMPASS 31 is a self-reported , validated , autonomic symptom questionnaire.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analysis Questionnaire scores were compared between groups using Mann-Whitney U-tests , and subject ages were compared using t-tests (IBM SPSS Statistics V23.0.2 IBM Corp . , Armonk , NY , USA)	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical analysis Questionnaire scores were compared between groups using Mann-Whitney U-tests , and subject ages were compared using t-tests (IBM SPSS Statistics V23.0.2 IBM Corp . , Armonk , NY , USA)	Mann-Whitney U-tests
	t-tests
A Spearmans rank correlation was utilised to investigate the relationships between questionnaire scores.	Spearmans rank correlation

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
