SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Field Sample Permit: Methods Study Area The research was carried out at the Department of Pharmacy at Ambo University.
IACUC: Ethical Approval The Ethical Review Committee of the Department of Pharmacy, Ambo University, provided ethical clearance with reference number ERC/PHAR/69/2020, and approved the verbal informed consent.
Consent: Ethical Approval The Ethical Review Committee of the Department of Pharmacy, Ambo University, provided ethical clearance with reference number ERC/PHAR/69/2020, and approved the verbal informed consent.
Inclusion and Exclusion Criteria
not detected.
Attrition
One of the recordings was translated and transcribed by a bi-lingual instructor and compared to the primary work to ensure that the translation was correct.
Sex as a biological variable
Only one female member of staff was on study leave abroad, while the remaining 24 members of staff were male.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis

not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
