SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: The requirement for informed consent was waived by the Institutional Review Board due to use of de-identified data from medical health records.
IRB: The requirement for informed consent was waived by the Institutional Review Board due to use of de-identified data from medical health records.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Data Information
Availability: Adequate laboratory support is available to support cerebrospinal fluid analysis inclusive of oligoclonal bands, Aquaporin-4 antibodies, Acetylcholine receptor antibodies and anti-muscle specific kinase antibodies.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
Adequate laboratory support is available to support cerebrospinal fluid analysis inclusive of oligoclonal bands, Aquaporin-4 antibodies, Acetylcholine receptor antibodies and anti-muscle specific kinase antibodies.	Aquaporin-4		
	Acetylcholine receptor		
	anti-muscle specific kinase antibodies.		
Software and Algorithms			
Statistical analysis was performed using GraphPad Prism version 7 (GraphPad Software, Inc).	GraphPad Prism		Suggestion: GraphPad Prism (RRID:SCR_002798)(link)
	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
2.3 Statistical analysis Means and medians were compared using either the students t-test or Mann-Whitneys U test for paired comparisons or ANOVA or Kruskal Wallis tests for more than 2 group comparisons.	t-test
	Mann-Whitneys U test
	ANOVA
	Kruskal Wallis tests

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
