SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Ethical considerations The protocol of this study was approved by the ethical board of the faculty of Medicine at the UCG and the research ethics committee of the Cliniques Universitaires du Graben.
Inclusion and Exclusion Criteria
Inclusion and exclusion criteria All patients who underwent a surgical procedure and for whom antibiotics were used in prophylaxis were included in this study.
Attrition
Therefore, 265 patients were included and distributed as follow: 129 in surgery and 136 in gynaecology and obstetrics
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
The stratified random sampling method (without replacement) was used.
Blinding
not detected.
Power Analysis
Sample size Sample size estimation was done using Fischers formula in a single population, assuming that the non-compliance of SAP is 20, within a 95 confidence interval and 5 marginal error.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Data analysis Descriptive analyses were performed using SPSS v22.0	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
