# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IRB: The present study was submitted to the Ethics Committee on the Use of Research Animals of the Federal University of Para (CEUAUFPA Brazil) and approved under report no. 7464060618 (ID 001020). |
| Inclusion and Exclusion Criteria |
| not detected. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| The animals (12 females and 12 males) were divided into 4 groups (3 females and 3 males each) and treated as follows: the control group was treated with aqueous solution of DMSO (99:1 vv) EEEp treated with 2000 mgkg (1 mL100 g of weight) of extract through a 4 cm stainless-steel gastric tube (Becton & Dickinson Co(tm)) FDMEp was submitted to similar treatment conditions, but the dichloromethane fraction was used ISO was treated, similarly to the other groups with isoeleutherin. |
| Subject Demographics |
| Weight: 2.3 Acute and subacute oral toxicity tests Sixty Balb C-An mice (Mus musculus 25-30 g), from the vivarium of the Evandro Chagas Institute (IEC Ananindeua-PA, Brazil), and kept in the vivarium of UFPA, were used. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |

| |
|---|
| The construction of the standard curve was performed in triplicate , allowing the calculation of the regression equation , which was used to calculate the values of antioxidant capacity of the samples from three independent experiments for each treatment . |
| Number: The construction of the standard curve was performed in triplicate , allowing the calculation of the regression equation , which was used to calculate the values of antioxidant capacity of the samples from three independent experiments for each treatment . |
| Cell Line Authentication |
| not detected. |
| Data Information |
| Availability: The botanical identification was carried out by Dr. Marlia Coelho , and the exsiccate was deposited in the Joao Murca Pires Herbarium ( MG ) of the Museu Paraense Emilio Goeldi under the MG registry no. 202631 . |

| | |
|---|---|
| Identifiers: deg , Long . 46,95511 deg . | 46,95511 |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Experimental Models: Cell Lines | | | |
| 2.2.4 Comet assay ( alcaline version ) Using 12-well plates , 1.5 x 105 HepG2 cellsMl ( BCRJ ) were seeded in RPMI-1640 medium supplemented with 10 BFS , the cells were cultured at 37 degC in a humidified atmosphere under 5 CO2 . | HepG2 | | Suggestion: RRID:CVCL_0027( link) |
| Software and Algorithms | | | |
| The virtual screening was performed by using the GOLD 2020.1 software, which performs docking simulations, using a Genetic Algorithm (GA) to generate and select conformers of flexible compounds that bind to the receptor site of a protein or DNA 41,42. | GOLD | | Suggestion: GOLD (RRID:SCR_000188)( link) |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| 2.5 Statistical analysis The data obtained in the tests were compared using the Student t-test with the software Prisma 5.0, and a significance level of 5 ($p < 0.05$) was considered in all tests. | t-test |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
