Document Identifier: **PMC8359427**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The study was approved by the ethics committee of the sponsor of the study (Medical University of Graz approval no. 26-442 ex 1314) as well as local ethics committees in each country , and patients gave their written , informed consent .
Consent: The study was approved by the ethics committee of the sponsor of the study (Medical University of Graz approval no. 26-442 ex 1314) as well as local ethics committees in each country , and patients gave their written , informed consent .
Inclusion and Exclusion Criteria
Legally competent male and female patients aged 35 to 85 years with a history of a SSR (>= grade I according to the classification by Ring and Messmer 18) were eligible for the study .
Attrition
not detected.
Sex as a biological variable
Legally competent male and female patients aged 35 to 85 years with a history of a SSR (>= grade I according to the classification by Ring and Messmer 18) were eligible for the study .
Subject Demographics
Age: Legally competent male and female patients aged 35 to 85 years with a history of a SSR (>= grade I according to the classification by Ring and Messmer 18) were eligible for the study .
Randomization
The primary outcome and secondary outcomes were analyzed using logistic linear mixed models with a random intercept.
Blinding
not detected.
Power Analysis
2.3 Statistics 2.3.1 Sample size calculation It was assumed that 24 of the patients would be on b-blockers andor ACEI.

Replication	
not required.	
Protocol Information	
Identifiers: Clinicaltrials . gov number NCT04269629) .	NCT04269629 Warning: study registration date February 5, 2020 is after study start date August 2014

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
