SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IACUC: The protocol and experimental procedures were approved by the Animal Care Committee of the Institute of Subtropical Agriculture (Approval, 20,160,112). 2.1 Ramie
Euthanasia Agents: The animals were weighed , and then electrically stunned and exsanguinated.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
Chemical composition (DM basis) of the ramie was: crude protein 173 g/kg , neutral detergent fiber 621 g/kg , acid detergent fiber 449 g/kg , Ca 36.2 g/kg , P 2.75 g/kg , and ash 138 g/kg (Tang et al. , 2019) . 2.2 Animals and experimental design Thirty-two male Liuyang Black goats (6 to 8 months of age) were treated for parasites with 0.2 mg/kg ivermectin , 10 mg/kg albendazole , and 20 mg/kg praziquantel and allowed to adapt to the environment over a 2 wk period.
Subject Demographics
Age: Chemical composition (DM basis) of the ramie was: crude protein 173 g/kg , neutral detergent fiber 621 g/kg , acid detergent fiber 449 g/kg , Ca 36.2 g/kg , P 2.75 g/kg , and ash 138 g/kg (Tang et al. , 2019) . 2.2 Animals and experimental design Thirty-two male Liuyang Black goats (6 to 8 months of age) were treated for parasites with 0.2 mg/kg ivermectin , 10 mg/kg albendazole , and 20 mg/kg praziquantel and allowed to adapt to the environment over a 2 wk period.
Randomization
Each block was randomly subdivided into 4 groups , each containing 4 goats .
Blinding
not detected.
Power Analysis
not detected.

Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Turkey's post hoc test was used for multiple comparisons.	Turkey's post hoc test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
