SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: II. Materials and Methods This prospective split-mouth pilot study was conducted in the Department of Oral & Maxillofacial Surgery, Dr. D. Y. Patil Vidyapeeth after an ethical clearance was granted by the Institutional Review Board (No. DPU118519).
Consent: All participants were well-informed of the study goals and procedures and everyone was given a printed informed consent form.
Inclusion and Exclusion Criteria
Sample size: n=20 alveoloplasty sites n=(Z1-a-Zb)623 Site A: n=10 (with dehydrated human amnioticchorionic membrane dHACM) Site B: n=10 (without dHACM) Patients who fit the following inclusion criteria were chosen for the study: (i) indicated for alveoloplasty in the upper and lower jaw bilaterally (ii) >45 years or older and (iii) willing to participate.
Attrition
Using a convenience sampling technique with random allocation, 10 patients with bilaterally edentulous jaws who reported to our center and required bilateral alveoloplasty procedure were selected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.

Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
The analysis was performed using IBM SPSS Statistics software (ver. 22.0 IBM, Armonk, NY, USA).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
