# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IRB: Institutional Review Board approval was obtained. |
| Inclusion and Exclusion Criteria |
| Patients were excluded if <18 years of age had missing first service date initiated chronic dialysis after the study end date were not prescribed P2Y12-I or new prescription criterion was not met. |
| Attrition |
| 19 CV death was defined as death from cardiac cause , including AMI , coronary artery disease , cardiomyopathy , cardiac arrhythmia , and cardiac arrest . |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: not detected. |
| Weight: not detected. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| Analyses were generated with SAS software , version 9.4 , for Windows ( SAS Institute Inc . | SAS | | |
| | SAS Institute | | Suggestion: Statistical Analysis System, RRID:SCR_008567( link) |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| Statistical Analyses Comparisons across groups were performed with Kruskal-Wallis test for continuous variables and Cochran-Mantel-Haenszel kh2 tests for categorical variables . | Kruskal-Wallis test |
| | kh2 tests |
| To compare all-cause death events based on each P2Y12-I category , univariable survival analyses using Kaplan-Meier curves were performed , with statistical significance determined using a log-rank test . | log-rank test |
| Specifically , our models allowed comparisons between ticagrelorclopidogrel , prasugrelclopidogrel , and prasugrelticagrelor expressed in terms of hazard reduction after Bonferroni multiplicity adjustment . | Bonferroni |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
