Document Identifier: **PMC8430046**

# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| Field Sample Permit: Materials and methods Cell lines and virus Vero (African green monkey kidney) cells were purchased from the American Type Culture Collection (Rockville, MD, USA) and cultured as described previously. 24 , 42 Human OSCC cell lines SAS, OSC-19, HSC-3, and SCC-4 were purchased from the Health Science Research Resources Bank (Osaka, |
| IACUC: All experimental animal protocols were approved by the Committee for Ethics of Animal Experimentation and were in accordance with the Guideline for Animal Experiments at the University of Tokyo . |
| Inclusion and Exclusion Criteria |
| not detected. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: Animal studies Female BALBc nunu , DBA2 , and C3HHe mice ( 5-6 weeks old ) were purchased from Japan SLC ( Hamamatsu , Shizuoka , Japan) . |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |

| |
|---|
| In vitro cytotoxicity studies Cytopathic effects were evaluated as described previously . 24 , 45 , 46 , 47 Briefly , human OSCC cells or mouse SCC cells were seeded on six-well plates at 2 x 105 cellswell and infected with mock or G47D at an MOI of 0.01 , 0.1 , or 1.0 in triplicates . |
| Number: In vitro cytotoxicity studies Cytopathic effects were evaluated as described previously . 24 , 45 , 46 , 47 Briefly , human OSCC cells or mouse SCC cells were seeded on six-well plates at 2 x 105 cellswell and infected with mock or G47D at an MOI of 0.01 , 0.1 , or 1.0 in triplicates . |
| Cell Line Authentication |
| not detected. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Antibodies | | | |
| Antibodies against HSV-1 ( Dako , Glostrup , Denmark) | HSV-1 ( Dako , Glostrup , Denmark) | | |
| EnVision+ System-HRP Labeled Polymer Anti-Rabbit IgG ( Dako ) was used as a secondary antibody . | EnVision+ System-HRP Labeled Polymer Anti-Rabbit IgG | | |
| | Anti-Rabbit IgG | | |
| After lysis of red blood cells in 1 x RBC Lysis Buffer Solution ( eBioscience , San Diego , CA , USA ) and selection of live cells using the Zombie Yellow Fixable Viability Kit ( BioLegend , San Diego , CA , USA) , lymphocytes were incubated with mouse anti- CD1632 antibody ( Tonbo Biosciences , San Diego , CA , USA ) followed by incubation with fluorescein allophycocyanin-conjugated mouse anti-CD8a ( BD Biosciences , San Jose , CA , USA) , | anti- CD1632 | | |
| | anti-CD8a | | |
| Experimental Models: Cell Lines | | | |
| Materials and methods Cell lines and virus Vero (African green monkey kidney) cells were purchased from the American Type Culture Collection (Rockville, MD, USA) and cultured as described previously. 24 , 42 Human OSCC cell lines SAS, OSC-19, HSC-3, and SCC-4 were purchased from the Health Science Research Resources Bank (Osaka, | Vero | | Suggestion: RRID:CVCL_0059( link) |
| In SAS-GFP , HSC-3 , and SCCVII tongue cancer models , implanted tumor cells grow within the tongue and metastasize to cervical lymph nodes , and animals typically die of primary tumor growth . | HSC-3 | | Suggestion: RRID:CVCL_1288( link) |
| Experimental Models: Organisms/Strains | | | |
| KLN205-MUC1 and SCCVII tongue tumors were generated by implanting 2 x 105 cells into the left side of the tongue of syngeneic DBA2 mice and C3HHe mice , respectively , and G47D was inoculated into the tumors as described above. | C3HHe | | |

| | | | |
|---|---|---|---|
| Recombinant DNA | | | |
| Some sections were counterstained with H&E . Generation of EGFP-expressing SAS cells and in vivo fluorescence imaging To detect lymph node metastasis by in vivo fluorescence imaging , we generated SAS cells that stably express EGFP ( SAS-GFP ) using a retroviral vector pQCLIN-EGFP . | pQCLIN-EGFP | | |
| Software and Algorithms | | | |
| A mouse SCC cell line , KLN205-MUC1 , derived from DBA2 strain was obtained from RIKEN BioResource Center ( Tsukuba , Japan) . | RIKEN BioResource | | Suggestion: RIKEN BioResource Center (RRID:SCR_003250)( link) |
| Data analysis was performed using SPSS v. | SPSS | | Suggestion: SPSS, RRID:SCR_002865( link) |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| Statistical analysis The Tukey-Kramer method was used to analyze the data from subcutaneous tumor models . | Tukey-Kramer |
| Real-time PCR data were analyzed using Mann-Whitney U test . | Mann-Whitney U test |
| Kaplan-Meier analysis was used for survival studies , and significance was evaluated by log-rank test , except for comparing the survival between the single injection group and the triple injections group ( Figures 3F and 5B) , for which the generalized Wilcoxon test was used , with pairwise over strata . | log-rank test |
| | Wilcoxon test |
| Students t test was used for the flow cytometric analyses. | Students t test |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
