Document Identifier: **PMC8462919**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: All randomized control trials (RCTs) and observational cohort studies (OCS), including patients age >18 years, and comparing the merits of remote dielectric sensing technology guided monitoring use in the reported history of a congestive heart including heart failure with reduced, borderline, or preserved ejection fraction.
Randomization
All randomized control trials (RCTs) and observational cohort studies (OCS), including patients age >18 years, and comparing the merits of remote dielectric sensing technology guided monitoring use in the reported history of a congestive heart including heart failure with reduced, borderline, or preserved ejection fraction.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Methods A comprehensive literature search of digital databases, including PubMed, Embase, and Cochrane, was performed from inception to 15 November 2020.	PubMed		Suggestion: PubMed (RRID:SCR_004846)(link)
	Embase		Suggestion: EMBASE (RRID:SCR_001650)(link)
	Cochrane		Suggestion: Cochrane Library (RRID:SCR_013000)(link)
The MESH terms for ReDS such as 'Remote dielectric sensing,' 'ReDS,' 'Radar electrical sensing,' 'cardiovascular monitoring device' were combined with a list of MeSH words for heart failure.	MeSH		Suggestion: MeSH (RRID:SCR_004750)(link)
The statistical analysis was performed using a metan module in STATA V. 16.	STATA		Suggestion: Stata (RRID:SCR_012763)(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
