# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IACUC: 2 MATERIALS AND METHODS 2.1 Animals and experimental treatments The experimental protocol in this study was approved by the Animal Care and Use Committee of Hunan Normal University, Changsha, Hunan, China. |
| Inclusion and Exclusion Criteria |
| not detected. |
| Attrition |
| not detected. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: not detected. |
| Weight: not detected. |
| Randomization |
| not detected. |
| Blinding |
| not detected. |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| 2.5 Statistical analysis Data were evaluated using the MIXED procedure of SAS (SAS Institute Inc.). | SAS Institute | | Suggestion: Statistical Analysis System, RRID:SCR_008567( link) |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| Prior to analysis, the normality and homoscedasticity of the data were tested using the Kolmogorov-Smirnov and Levene tests, with the significance level set at 5. | Kolmogorov-Smirnov |
| | Levene tests |
| Repeated measures ANOVA was performed using the MIXED procedure of SAS in order to compare the two groups with regard to lactational feed intake, litter performance, backfat thickness, ATTD of nutrients, and composition of colostrum and milk. | ANOVA |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
