Document Identifier: **PMC8476736**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Field Sample Permit: Materials and Methods The present study was carried out in Cellular and Molecular Biology Research Center, Shahid Beheshti University of Medical Sciences, Tehran, Iran during 2015-2018.
IRB: Ethical approval This study was approved by the Ethical Committee of Shahid Beheshti University of Medical Sciences (Ethical code no IR.SBMU.SM.REC.1394.66) in accordance with the Helsinki Declaration.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Data Information	
Identifiers: The recombinant protein P1P2P3 contains 148 amino acids.	P1P2P3

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
All collected samples were tested by using DAT (Gold standard) in the leishmaniasis Laboratory of the School of Public Health, Tehran University of Medical Sciences, Tehran, Iran for Anti-Leishmania antibodies.	Anti-Leishmania		
Positive and negative serum samples of Anti-Leishmania infantum IgG antibodies were tested by using Indirect ELISA method.	Anti-Leishmania infantum IgG		
Recombinant DNA			
The sequence was synthesized and cloned into the expression vector pET-28a by SBS Genetech Co. (China) to produce recombinant expression plasmid P1P2P3.	pET-28a		Suggestion: RRID:Addgene_48198(link)
Software and Algorithms			
The tertiary structure of final construct was modeled by I-TASSER server.	I-TASSER		Suggestion: I-TASSER (RRID:SCR_014627)(link)
Statistical analysis All the statistical analyses were processed with GraphPad Prism release 7.0, and SPSS (Chicago, IL, USA) software version 16.0.	GraphPad Prism		
	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
