SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Ethical approval was obtained from the local Ethics Committee (DYBEAH:30.05.2016- 3030) and informed written consent was obtained from all patients.
Consent: Ethical approval was obtained from the local Ethics Committee (DYBEAH:30.05.2016- 3030) and informed written consent was obtained from all patients.
Inclusion and Exclusion Criteria
We excluded patients who had multiple trauma, depressed consciousness, open andor displaced fracture, trivial injuries such as isolated skin abrasions and who refused to be a participant in the study.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: Material and Method This was a prospective study of consecutive patients aged 16 years or older with acute non-penetrating ankle or foot injuries occurred within the last 24 hours who had a radiography of ankle or foot or both.
Randomization
not detected.
Blinding
The investigator was blinded to the results of x rays.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
