# SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

**Table 1: Rigor Adherence Table**

| |
|---|
| Ethics |
| IRB: This study was formally approved by the Institutional Review Board of University of California , San Francisco ( No. 18-26789) . |
| Consent: Verbal consent was obtained for each patient prior to administering the surveys . |
| Inclusion and Exclusion Criteria |
| Exclusion criteria included constructs that were extended into the cervical spine and patient self-reported construct extensions at outside institutions . |
| Attrition |
| not detected. |
| Sex as a biological variable |
| not detected. |
| Subject Demographics |
| Age: not detected. |
| Weight: not detected. |
| Randomization |
| not detected. |
| Blinding |
| Survey administrators were not blinded to the clinical characteristics of patients , but all patients were administered standard questions read from the survey in Fig . 1 . |
| Power Analysis |
| not detected. |
| Replication |
| not required. |

**Table 2: Key Resources Table**

| Your Sentences | REAGENT or RESOURCE | SOURCE | IDENTIFIER |
|---|---|---|---|
| Software and Algorithms | | | |
| All statistical analysis was performed using IBM SPSS Statistics ver . | SPSS | | Suggestion: SPSS, RRID:SCR_002865( link) |

**Other Entities Detected**

| Your Sentences | Recognized Entity |
|---|---|
| Statistical Tests | |
| Descriptions of the scapular pain were collected using a standardized predetermined telephone survey . 3 . Statistical Analysis Chi-square test and Student t-test were used for categorical and continuous outcomes , respectively . | Chi-square test |
| | t-test |

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
