SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
Patient population Detailed inclusion and exclusion criteria for the trial have been published previously.14 15 Adult patients (>=40 years of age) with T2DM (glycated hemoglobin (HbA1c) 7.0-10.5, inclusive) and stable, established ASCVD of the coronary, cerebrovascular, andor peripheral arterial systems were included.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: Patient population Detailed inclusion and exclusion criteria for the trial have been published previously.14 15 Adult patients (>=40 years of age) with T2DM (glycated hemoglobin (HbA1c) 7.0-10.5, inclusive) and stable, established ASCVD of the coronary, cerebrovascular, andor peripheral arterial systems were included.
Randomization
VERTIS CV was a prospective, randomized, double-blind, placebo-controlled, parallel-group, multicenter trial conducted in patients with T2DM and established ASCVD comparing ertugliflozin versus placebo.14 15 Eligible patients were randomly assigned (1:1:1) to once-daily ertugliflozin 5 mg or 15 mg or placebo in addition to background standard-of-care treatment.
Blinding
Adjudication of potential kidney events was performed by an independent, blinded committee to assess causality relative to study medication as Very likely, Probable, Possible, Doubtful, and Not related.
Power Analysis
not detected.
Replication

not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
