Document Identifier: **PMC8520586**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
34 The inclusion and exclusion criteria were also clearly defined and two reviewers agreed on the selection of the various papers.
Attrition
not required.
Sex as a biological variable
Logistic regression Being female and being non-English speaking were independently associated with less telemedicine use.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Search strategy We searched PubMed , Embase and Google Scholar , alongside hand searches of bibliographies , to identify relevant manuscripts .	PubMed		Suggestion: PubMed (RRID:SCR_004846)(link)
	Embase		Suggestion: EMBASE (RRID:SCR_001650)(link)
	Google Scholar		Suggestion: Google Scholar (RRID:SCR_008878)(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Categorical data were compared using the Kh2 test.	Kh2 test
Continuous variables compared using the Students t-test.	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
