SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: Informed consent from all respondents was gained prior to the commencement of the questionnaire.
Inclusion and Exclusion Criteria
Inclusion and exclusion criteria Pharmacists including hospital pharmacists or community pharmacists based on health-systems or clinics in the 11 locations were included in the survey.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analysis Data were analysed with SPSS V.24.	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Normality of the data was tested using Kolmogorov-Smirnov test.	Kolmogorov-Smirnov test
If the data did not comply with the normal distribution, Mann-Whitney U or Kruskal-Wallis tests were used to compare differences and Spearmans rank correlation was applied to determine associations among variables.	Mann-Whitney U
	Kruskal-Wallis tests
	Spearmans rank correlation

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
