Document Identifier: **PMC8524287**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
Key inclusion criteria included age 18 years or older histologically or cytologically confirmed adenocarcinoma of the prostate with evidence of metastatic disease to the bone on radionuclide bone scan, CT scan or MRI scan tumor progression on gonadotropin-releasing hormone analog with castrate levels serum testosterone (<=1.7 nmolL or 50 ngdL) with prostate-specific antigen (PSA) andor radiographic progression according to Prostate Cancer Working Group 3 (PCWG3) criteria asymptomatic or minimally symptomatic disease Eastern Cooperative Oncology Group performance status of 0 or 1, and adequate hematologic (including hemoglobin >=110 gL), renal, and hepatic function.
Attrition
not required.
Sex as a biological variable
not detected.
Subject Demographics
Age: Key inclusion criteria included age 18 years or older histologically or cytologically confirmed adenocarcinoma of the prostate with evidence of metastatic disease to the bone on radionuclide bone scan, CT scan or MRI scan tumor progression on gonadotropin-releasing hormone analog with castrate levels serum testosterone (<=1.7 nmolL or 50 ngdL) with prostate-specific antigen (PSA) andor radiographic progression according to Prostate Cancer Working Group 3 (PCWG3) criteria asymptomatic or minimally symptomatic disease Eastern Cooperative Oncology Group performance status of 0 or 1, and adequate hematologic (including hemoglobin >=110 gL), renal, and hepatic function.
Randomization
not detected.
Blinding
not detected.
Power Analysis

not detected.
Replication
not required.
Data Information
Availability: Statistical analyses The full statistical analysis plan is available in the protocol in online supplemental appendix 1.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
H&E and immunohistochemical staining was performed using the CD8 (Thermo Scientific, cat MS457S), CD45RO (Leica Microsystems, cat PA0146), FOXP3 (Bio Legend, cat 320108), and CD68 (Agilent-Dako, cat M0876) antibodies.	CD8		
	CD45RO		Suggestion: (Innovative Research Cat# MHCD45RO004, RRID:AB_1477565)(link)
	FOXP3		
	CD68		
Software and Algorithms			
All clinical analyses were performed in SAS V.9.4 (SAS Institute) and Kaplan-Meier figures were generated in Stata V.16 (StataCorp LLC).	SAS Institute		Suggestion: Statistical Analysis System, RRID:SCR_008567(link)
	StataCorp		Suggestion: Stata, RRID:SCR_012763(link)
NanoString Bone marrow aspirates (BMAs) from patients were collected in Vacutainer or Cell Preparation Tubes (CPTs) containing sodium heparin (BD Vacutainer, Franklin Lakes, New Jersey, USA).	BD Vacutainer		
22 23 Data were plotted using GraphPad Prism 8 (GraphPad Software V.8.4.3).	GraphPad Prism		Suggestion: GraphPad Prism (RRID:SCR_002798)(link)
	GraphPad		Suggestion: GraphPad Prism, RRID:SCR_002798(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Exploratory subgroup comparisons used the log-rank test and are reported with median time and 95 CIs.	log-rank test
Statistical analysis was performed using the two-tailed Students t-test to compare two groups.	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
