SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Patients and Methods The protocol for this retrospective study was approved by the institutional review board of the authors' institution, and examinations were conducted according to the standards of good clinical practice and the Declaration of Helsinki.
Inclusion and Exclusion Criteria
Patients for whom data were missing, including age, sex, mechanism of injury (penetrating or blunt), origin of transportation (evacuation from scene or inter-hospital transportation), Injury Severity Score (ISS), Revised Trauma Score (RTS) on arrival, and unknown outcome, were excluded 7 , 8).
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Data were analyzed using the paired Student's t-test for changes in vital signs between prehospital and in-hospital, and the non-paired Student's t-test or $\chi 2$ test for comparisons between the two groups.	t-test
	Student's t-test
	$\chi 2$ test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
