SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: Written informed consent was obtained from each participant in the ECRHSRHINESSA studies.
IRB: Ethics approval was obtained by the appropriate ethics committee in each centre (supplementary material).
Inclusion and Exclusion Criteria
Of these , 913 males reported having at least one offspring and 297 of them had at least one adult offspring who participated in the RHINESSA clinical stage and were thus eligible for inclusion in the present analyses (figure 1) .
Attrition
not detected.
Sex as a biological variable
Study subjects Of the 2302 males from Estonia (Tartu) , Norway (Bergen) , Spain (Albacete and Huelva) and Sweden (Gothenburg , Umea and Uppsala) who had undergone a clinical examination in ECRHS I-III , 1241 participated in ECRHS III .
Subject Demographics
Age: Methods Study design ECRHS is an international, population-based, cohort study on respiratory health in subjects aged 20-44 years at the time of recruitment (ECRHS I 1991-1993) 23.
Randomization
At baseline, each participant was sent a brief screening questionnaire (stage 1) and, from those who responded, a 20 random sample was invited to undergo a more detailed clinical examination (stage 2).
Blinding
not detected.
Power Analysis
not detected.
Replication

not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Stata version 15 (StataCorp , College Station , TX , USA)	StataCorp		Suggestion: Stata, RRID:SCR_012763(link)

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
