Document Identifier: **PMC8529651**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IACUC: All animal procedures were conducted in accordance with the Federal Regulations for Animal Experimentation and Care and approved by the Institutional Animal Care and Use Committee based on US National Institute for Health publication (no. 85e23, revised 1985).
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
25 4.5 In Vivo Antidiabetic Activity 4.5.1 Animals The research was carried out by using male Wistar rats having a body weight of about 250 g.
Subject Demographics
Weight: 25 4.5 In Vivo Antidiabetic Activity 4.5.1 Animals The research was carried out by using male Wistar rats having a body weight of about 250 g.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Cell Line Authentication

not detected.	
Data Information	
Identifiers: 23,29,30 In the preparation of ligands and enzymes, docking studies were performed according to our previously reported methods. 23,29–31 First of all, 3-D protonation of the downloaded enzyme was carried out at pH = 7, temperature = 300 K, and salt concentration 0.1 M.	23,29,30

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Experimental Models: Cell Lines			
4.4.2 Glucose Uptake Activity The L-6 cells cultured on a six-well plate were placed in an incubator (5% CO2) at 36 °C for a period of 48 h.	L-6		
Experimental Models: Organisms/Strains			
25 4.5 In Vivo Antidiabetic Activity 4.5.1 Animals The research was carried out by using male Wistar rats having a body weight of about 250 g.	Wistar		Suggestion: RRID:RGD_13508588(link)
Software and Algorithms			
Deposition of voucher specimen (Bot.15077) was done in the herbarium of the Department of Botany , University of Peshawar , Pakistan . 4.2 Chemicals and Reagents Fetal bovine serum (FBS) and Dulbecco's modified Eagle's medium (DMEM) were obtained from Invitrogen USA and GIBCO USA , respectively	GIBCO		

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
