SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: This study was approved by the ethical committee of our hospital and performed in accordance with the ethical principles associated with the Declaration of Helsinki.
Inclusion and Exclusion Criteria
We excluded patients who had undergone prior treatment of pharyngeal cancer at another hospital andor had unspecified details of detection modality.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
SPSS version 21.0 (IBM Corporation, Armonk, NY, United States) was used for all statistical analyses.	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical analysis Continuous data were compared using the Mann-Whitney U test.	Mann-Whitney U test
Pearsons kh 2 test or Fishers exact test were used to analyze the categorical data and compare proportions.	Pearsons kh 2 test
	Fishers exact test
The survival rates of patients were plotted using Kaplan-Meier curves, and the difference was evaluated using the log rank test.	log rank test
Cox regression analysis was used to estimate the hazard ratio and to calculate the 95 confidence interval.	Cox regression

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
