Document Identifier: **PMC8558638**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The ethics of our study was approved by the Ethics Committee of Xiangya Hospital of Central South University and the ethical approval number is 202110181.
Inclusion and Exclusion Criteria
not detected.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.
Cell Line Authentication
not detected.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
Antibodies and Chemicals The following antibodies were used in this study: TEAD2 (21159-1-AP, Proteintech), actin (66009-1-Ig, Proteintech).	TEAD2		
	actin (66009-1-Ig, Proteintech).		
Experimental Models: Cell Lines			
Methods Cell Culture The human ovarian epithelial IOSE80 and the human ovarian cancer A2780, SKOV-3, OVCAR3 and TOV112D cell lines were obtained from the Cancer Research Institute, Central South University, China.	IOSE80		Suggestion: RRID:CVCL_5546(link)
	SKOV-3		Suggestion: RRID:CVCL_0532(link)
	OVCAR3		Suggestion: RRID:CVCL_0465(link)
	TOV112D		
Software and Algorithms			
GEPIA Gene Expression Profiling Interactive Analysis (GEPIA), a web-based tool to give rapid and customizable functionalities based on TCGA and GTEx data, could offer vital interactive and customizable functions including differential expression analysis, patient survival analysis, correlation analysis and so on.14 In the study, we used single-gene analysis in GEPIA to value the mRNA expression differences of TEAD family members in OSC tissues compared with normal tissues.	Gene Expression Profiling Interactive Analysis		
19 In the study, we built the TEAD-associated protein-protein interaction (PPI) network using STRING.	STRING		Suggestion: STRING (RRID:SCR_005223)(link)
20 Gene set enrichment analysis of TEAD family-associated coexpression genes was explored using WebGestalt algorithm, including gene ontology (GO) and Kyoto Encyclopedia of Genes and Genomes (KEGG).	WebGestalt		
	KEGG		

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Differences in mRNA expression were compared by Students t-test, and $p < 0.05$ was considered statistical significance.	t-test
Students t-test was used to explore the difference between two groups.	Students t-test
Oligonucleotides	
Table 1 The TEAD Family Primer Sequences Used in RT-PCR Primers Forward Sequences Reverse Sequences TEAD1 ATGGAAAGGATGAGTGACTCTGC TCCCACATGGTGGATAGATAGC TEAD2 CTTCGTGGAACCGCCAGAT GGAGGCCACCCTTTTTCTCA TEAD3 TCATCCTGTCAGACGAGGG TCTTCCGAGCTAGAACCTGTATG TEAD4 GAACGGGGACCCTCCAATG GCGAGCATACTCTGTCTCAAC Transfections For siRNA transfection, cells were all transfected by using Lipofectamine 3000 reagent (L3000150, Invitrogen, USA) according to the manufacturers protocol.	ATGGAAAGGATGAGTGACTCTGC TCCCACATGGTGGATAGATAGC TEAD2 CTTCGTGGAACCGCCAGAT GGAGGCCACCCTTTTTCTCA TEAD3 TCATCCTGTCAGACGAGGG TCTTCCGAGCTAGAACCTGTATG TEAD4 GAACGGGGACCCTCCAATG GCGAGCATACTCTGTCTCAAC

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
