SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
not required.
Subject Demographics
Age: not required.
Weight: not required.
Randomization
One week later, they were randomly divided into experimental group and control group.
Blinding
not detected.
Power Analysis
not detected.
Replication
The negative control was 100 mL of normal saline and all experiments were repeated 3 times .

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
2.7 Statistical analysis The results were analyzed using SPSS17.0 statistical software, and all data were expressed as mean +- standard deviation.	SPSS17.0		

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
An analysis of variance (ANOVA) followed by Tukeys honestly significant difference (HSD) test was used to determine significance between groups, and a P value of <.	analysis of variance
	ANOVA
	Tukeys honestly significant difference (HSD) test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
