Document Identifier: **PMC8569879**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Field Sample Permit: Contamination countermeasures were also taken into consideration for example , DNAse treatment and sample handling were conducted in a separate room using a special glove box under UV treatment .
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
*Fetus were come from 3 different farm: 2173F male I farm , 0648F female J farm , 0996F male E farm .
Subject Demographics
Age: not required.
Weight: not required.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Antibodies			
These animals tested positive for the BoDV-1 (N antigen) antibody and had symptoms including difficulty in standing, behavioral abnormalities, and wobbling of the hind legs.	BoDV-1 (N antigen)		
The samples were tested for BoDV antibodies using an enzyme-linked immunosorbent assay (ELISA) to screen for the recombinant BoDV nucleoprotein (BDV-N) antigen .	BDV-N) antigen .		
Antibody-antigen complexes were detected using the same peroxidase-conjugated goat affinity purified anti-bovine IgG 18 .	anti-bovine IgG		

Other Entities Detected

Your Sentences	Recognized Entity
Unresolved RRIDs	
Nucleotide alignment and phylogenetic analysis were established through comparison with previously reported BoDV sequences in Japan (AB281092, AB469325, AB469326, AB469327, AB022025, AB00147, and AB246670) and GenBank.	AB281092,
	AB469325,
	AB469326,
	AB469327,
	AB022025,
	AB00147,
	AB246670

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
