SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
not required.
Inclusion and Exclusion Criteria
not required.
Attrition
not required.
Sex as a biological variable
To obtain X. laevis eggs, stimulate ovulation in X. laevis adult females by subcutaneous injection of (800 unitsanimal
Subject Demographics
Age: not required.
Weight: not required.
Randomization
Since MCCs randomly migrate laterally , some MCCs may exit the region of interest , while others may enter it .
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
A first Python 3 script has been developed to quantify this latter tracked vertex drift at frame level and correct it (see https:github.comfabdamcc_paperrefocus.py). c. We then use the Image Stabilizer Fiji plugin (https:imagej.netImage_Stabilizer), which implements the Lucas-Kanade algorithm to further stabilize the movie (Figure 2 and Methods video S1).	Python		
The centroid of each cell is manually tracked with manual tracking Fiji plugin throughout each movie to analyze the migratory behavior of MCCs.	Fiji		

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
