Document Identifier: **PMC8593498**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: This study protocol was conducted in accordance with the Declaration of Helsinki and approved by the Institutional Review Board of Samsung Medical Center (IRB number: 2018-11-133-005).
Consent: The Institutional Review Board waived the requirement for informed consent because we used de-identified data. 2.
Inclusion and Exclusion Criteria
Among these patients, we excluded 191 patients who underwent single stenting or primary PTBD.
Attrition
Among these patients, we excluded 191 patients who underwent single stenting or primary PTBD.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analyses were executed using STATA 15.0 software (StataCorp.,	STATA		Suggestion: Stata (RRID:SCR_012763)(link)
	StataCorp		Suggestion: Stata, RRID:SCR_012763(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical analysis The Pearson chi-square test and the Student t-test were used to analyze the statistical significances of different categorical and continuous variables, respectively.	chi-square test
	t-test
The mortality rate was estimated using the Kaplan-Meier method and compared using the log-rank test.	log-rank test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
