SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
Consent: Thus, informed consent was waived by the ethics committee of Beth Israel Deaconess Medical Center.
IRB: Thus, informed consent was waived by the ethics committee of Beth Israel Deaconess Medical Center.
Inclusion and Exclusion Criteria
Inclusion criteria and definition The patients were extracted based on The International Classification of Diseases, ninth Revision, Clinical Modification code of 008.45, indicating the diagnosis of intestinal infection due to Clostridium difficile at hospital discharge.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: We also extracted data for the first ICU stay of patients aged between 16 and 90 years old.
Randomization
RF uses random bootstrap samples of raw data samples to construct a series of decision trees and use them for medical prediction and classification tasks.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
The statistical analyses were performed in Python 3.6.	Python		

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
