Document Identifier: **PMC8649238**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Institutional review board approval and informed consent was waived for this study because of the deidentified nature of the database.
Consent: Institutional review board approval and informed consent was waived for this study because of the deidentified nature of the database.
Inclusion and Exclusion Criteria
12 All patients with CS who had a planned admission were excluded.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Data Information
Availability: The data that support the findings of this study are available from the corresponding author upon reasonable request .

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
All analyses were performed using Stata statistical software (version 16 StataCorp, College Station, TX).	Stata		Suggestion: Stata (RRID:SCR_012763)(link)
	StataCorp		Suggestion: Stata, RRID:SCR_012763(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Comparisons were performed using the kh 2 test ,	kh 2 test
, Student t test, and Wilcoxon rank sum test for categorical and continuous variables with normal and nonnormal distribution, respectively.	t test
	Wilcoxon rank sum test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
