Document Identifier: **PMC8649240**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: Ethics Approval The Institutional Review Board at the University of Iowa approved the study with waiver of informed consent.
Consent: Ethics Approval The Institutional Review Board at the University of Iowa approved the study with waiver of informed consent.
Inclusion and Exclusion Criteria
We excluded patients who were enrolled in Medicare Advantage and patients who were not enrolled in Medicare Part D for at least 3 months before and 3 months after the date of the cardioversion.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: not detected.
Weight: not detected.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
13 All analysis was performed with SAS version 9.4 (SAS Institute, Cary, NC) and R 3.4.3 (R Foundation for Statistical Computing, Vienna, Austria).	SAS Institute		Suggestion: Statistical Analysis System, RRID:SCR_008567(link)

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Statistical Analysis Continuous variables are presented as mean and SD and compared using Students t test if normally distributed, or presented as median and interquartile range and compared using the Mann-Whitney test if nonnormally distributed.	t test
	Mann-Whitney test
Categorical variables are presented as counts and percentages and were compared using the chi-square test.	chi-square test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
