Document Identifier: **PMC8651987**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: The Institutional Review Board of Seoul National University Hospital approved all data collection, storage, and analysis (No. H-2104-092-1211).
Consent: This study was performed in accordance with the Declaration of Helsinki and written informed consent was waived due to its retrospective nature.
Inclusion and Exclusion Criteria
Patients who were unavailable for the preoperative imaging studies were excluded.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: All patients aged 19 years or older were included.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER
Software and Algorithms			
Statistical analysis Statistical analysis was performed using the Pearson chi-square test and the Fischer exact test for categorical data and the Student t-test for continuous data using IBM SPSS Statistics ver. 25.0 for Windows (IBM, Armonk, New York, USA).	SPSS		Suggestion: SPSS, RRID:SCR_002865(link)

Statistical analysis Statistical analysis was performed using the Pearson chi-square test and the Fischer exact test for categorical data and the Student t-test for continuous data using IBM SPSS Statistics ver. 25.0 for Windows (IBM, Armonk, New York, USA).	chi-square test
	Fischer exact test
	t-test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.

For a full description of scored criteria and tips for improving your score, please see https://www.scicrunch.com/sciscorereport-faq
