Document Identifier: **PMC8652761**

SciScore Report

Below you will find your SciScore report containing three tables. Your score is calculated based on adherence to scientific rigor criteria (Table 1) and identification of key biological resources (Table 2). Table 3 contains statistical tests and oligonucleotides but is not scored. If SciScore makes any mistakes, please contact us to help us learn and improve.

Table 1: Rigor Adherence Table

Ethics
IRB: 2.1 Ethical approval The Northwell Health Institutional Review Board approved this study as minimal-risk research using data collected for routine clinical practice and waived the requirement for informed consent (IRB 20-0890 initial approval October 22, 2020).
Consent: 2.1 Ethical approval The Northwell Health Institutional Review Board approved this study as minimal-risk research using data collected for routine clinical practice and waived the requirement for informed consent (IRB 20-0890 initial approval October 22, 2020).
Inclusion and Exclusion Criteria
Deliveries that occurred at less than 20 weeks of gestation were excluded.
Attrition
not detected.
Sex as a biological variable
not detected.
Subject Demographics
Age: Deliveries that occurred at less than 20 weeks of gestation were excluded.
Randomization
not detected.
Blinding
not detected.
Power Analysis
not detected.
Replication
not required.

Table 2: Key Resources Table

Your Sentences	REAGENT or RESOURCE	SOURCE	IDENTIFIER

Other Entities Detected

Your Sentences	Recognized Entity
Statistical Tests	
Each categorical outcome was examined using the chi-squared test or Fishers exact test , as appropriate.	chi-squared test
	Fishers exact test
Comparisons for continuous variables were performed using either the Mann-Whitney U test or Students t test , as appropriate.	Mann-Whitney U test
	Students t test

SciScore is an automated tool that is designed to assist expert reviewers by finding and presenting formulaic information scattered throughout a paper in a standard, easy to digest format. ***SciScore is not a substitute for expert review.*** SciScore also checks for the presence and correctness of several unique identifiers, including RRIDs (research resource identifiers) in the manuscript, detects sentences that appear to be missing RRIDs, and can even suggest RRIDs under certain circumstances. **All RRID suggestions should be verified;** only the author can know whether the suggestions are correct.
